SKILLS

PROGRAMMING
Over 10,000 lines:
JAVA • HTML • CSS • JavaScript •
BootStrap • TypeScript • Material UI
React.JS • Redux • MySQL • Node.JS •
Express.JS

Familiar:
AWS • Kubernetes• Kafka • Go

OTHER
Git • Jira • Vs Studio • Postman
Photoshop • AWS • Canva

EXPERIENCE

Total Experience - 3+ Years

DESIGNBYTES | Full Stack Developer
2024 - Present | Pune, India
- Developed RESTful APIs for the backend of an admin panel used for power plants monitoring, catering to the needs of a prominent heavy electrical company.
- Designed and implemented the frontend of the admin panel application, ensuring a seamless user experience and intuitive interface.
- Implemented robust authentication and authorization mechanisms to secure access to the admin panel application, enhancing data protection and user privacy.
- Actively maintained and optimized the web application to ensure high performance and reliability, addressing any issues and implementing improvements as needed.
- Successfully optimized the loading time of the web application by 10%, resulting in a reduction in loading time, thereby enhancing user experience and engagement.

CAPGEMINI INDIA | Software Developer
2021 - 2024 | Pune, India

- Designed and implemented robust back end systems for Game Scheduler Applications using Javascript, Node.js, Express.js, ensuring seamless functionality.
- Wrote high quality maintainable code in Java on Springboot.
- Actively engaged in troubleshoot and debug issues, optimizing performance and addressing scalability challenges.
- Collaborating with cross functional teams to create cutting-edge, end to end production grade online wallet application using React.js, contributing to enhanced used experience.
